

VIRAMASK™ WITH VIRASEAL

SUBSTANTIAL INHALATION PROTECTION AGAINST FLU & AIRBORNE PARTICLES

CWR Environmental has just introduced the first consumer **antiviral adhesion mask** that offers substantial inhalation protection against airborne flu and viral particles. The **VIRAMASK** medical adhesive technology produces an effective virus seal without confining head bands that can shift and produce viral leakage. The **VIRAMASK** with "Viraseal" is an incredibly effective face mask that is designed to give you maximum protection in the event you have contact with infected people. The **VIRAMASK** offers substantial inhalation protection against airborne influenza viral particles - as well as other viral and bacterial pathogens.

ViraMask Rating is N99

Unlike hospital-type masks, which allow air to leak in from all sides, it is the world's first consumer anti-viral mask to use an adhesive to form a *tight seal* around the nose and mouth. It applies like a band-aid and molds instantly to any face. It has been tested to FDA and NIOSH (National Institute of Occupational Safety and Health) protocols and is up to 5 times more effective at viral filtration than N95 masks used in hospitals, with bacterial and viral filtration efficiency greater than 99.9%!

Even if we're fortunate enough never to have to worry about a Flu pandemic, the **VIRAMASK** offers a very high level of personal germ protection when you and your family need it.

VIRAMASK FEATURES:

- ADVANCED FILTRATION AGAINST AIRBORNE FLU AND OTHER VIRAL, AND BACTERIAL SUBMICRON SIZED PARTICLES. THIS OF COURSE INCLUDES LARGER PARTICLES SUCH AS POLLEN, ALLERGENS, AND MOLD SPORES.
- EASY FOR ANYONE TO USE INSTANTLY. APPLIES LIKE A BANDAID.
- ADVANCED VIRUS PROTECTION TESTED BY LEADING RESPIRATORY PROTECTION SCIENTISTS AND LABORATORIES ON NIOSH APPROVED FILTER TESTING INSTRUMENTS.
- TESTED AND CERTIFIED TO FDA (21 CFR PART 58) PROTOCOL NO.2005-36208-01 VIRAL FILTRATION EFFICIENCY: (21 CFR PART 58) PROTOCOL NO.2005-536209-01
- BACTERIAL AND VIRAL FILTRATION EFFICIENCY GREATER THAN 99.9%.
- DISPOSABLE 8 HOUR USAGE.
- HYPOALLERGENIC MEDICAL GRADE ADHESION SEAL.
- EVAPORATIVE COOLING SYSTEM THAT IS COMFORTABLE TO WEAR WITH EASE OF BREATHING AND TALKING.
- FITS AND MOLDS INSTANTLY TO ANY FACE.
- BILATERAL PROTECTION IF WEARER HAS RESPIRATORY CONDITION IT HELPS PROTECT THOSE NEARBY.
- MADE AND TESTED IN THE USA.
- VIRAMASKS ARE NON-RETURNABLE ONCE PACKAGE SEAL HAS BEEN BROKEN.
